Mercury (Hg):	0.05 ppm w/w
Clarity:	79% Transmission

Additional Information

Meets the purity criteria as defined in EN 901 – type 1. The end user is however reminded of the European Drinking Water Directive 98/83/EC of 3 November 1998 on the quality of water intended for human consumption, defining the final quality of drinking water. Compliance to EN901:2013 does not guarantee that the sodium hypochlorite is suitable for use in all drinking water applications.

Issue date: June 2019
